Subject: Updated CLPM screen

Broadcast to all DPA Staff & Case Management Services Providers
From the 60 Month Project Team

The CLPM (Client Profile/Maintenance) screen has been modified as follows to better clarify the difference between the PRAW months used field and the CLPM months used field:

- A new field, *LAST ATAP MONTH AUTH*, will now appear underneath the *ATAP MONTHS USED* field.
- The *BA EXMPT MTHS USED* field has been moved to replace the *FS MTHS USED* field.

The *LAST ATAP MONTH AUTH* field displays the last ATAP month that has been authorized. Whether working a case manually or letting the case automatically roll, this field will usually display the most recent authorization for the case.

Please be aware of the following for the *LAST ATAP MONTH AUTH* field:

- Suspended cases will display the last month with authorized benefits.
- A case with a new application and zero months used will display a blank the first month until the benefit is authorized.
- Cases in exempt village areas will display 000 in the months used field if the case has always been in an exempt village area. If there are countable months from when the family lived in a non-exempt area, the number of months in the non-exempt area will display. Either way the last current authorized month will display in the *LAST ATAP MONTH AUTH* field.

If you have any system questions, please contact Systems Operations Help Desk at EISHelp@health.state.ak.us <<mailto:EISHelp@health.state.ak.us>>. For policy questions, please contact the Policy and Program Development Team at DPAPolicy@health.state.ak.us <<mailto:DPAPolicy@health.state.ak.us>>.
